PVC canvas angle cover

Reference: 1017 / 1019 / 1022 / 1023

Technical specifications

Dimensions	2.50 m
Packaging	50 pieces / carton (1017) 100 pieces / carton (1019 / 1022 / 1023)
Material	Rigid PVC perforated (not plastified), impact resistant, PVC-U, EGLC 082-05-T33 DIN ISO 1163-1 Screen Mesh certified ETAG: 4x4 - 165 gr/m²
Screen	Mesh certified ETAG: 4x4 - 165 gr/m²
Bonding	Hot melt pressure sensitive adhesive based on hydrocarbon resins and synthetic rubber Density: 1.0 g/cm³
Heat resistance	Up to 160°C
Softening temperature	132°C to 142°C

Scope of application

Reinforcement of building corners and wall openings (windows, doors)

Implementation of the project

Fix the angle iron with a few points of plaster before applying the surface grid. Overlap the facade grid with the angle fabric and then coat.
