PVC canvas angle for rounding

Reference: 2015

Technical specifications

Dimensions	2,50 m
Raster dimensions	33 x 33 mm
Packaging	20 pieces / carton
Certified mesh weft	ETAG : 4x4 - 165 gr/m²
Bonding	Hot melt pressure sensitive adhesive based on hydrocarbon resins and synthetic rubber Density: 1.0 g / cm³
Heat resistance	Up to 160°C
Softening temperature	132°C to 142°C

Application

Reinforcement of building corners and wall openings (windows, doors), especially for rounded corners.

Implementation of the project

A fin is already pre-cut so that this angle can be adjusted to curved arcs or similar elements.

The mesh size must be cut according to the location.

The corner is first fixed with glue points and then coated with the glass grid.
